

Durian Industries Ltd gains the prestigious FSC Certification.

An Internationally recognized council, catering to sustainable forest management.

We are glad to announce that Durian Industries Ltd is among the select few in India to be certified for compliance with the internationally recognized **Forest Stewardship Council (FSC)**. From a customer perspective, the FSC label represents a promise being made. That Durian Industries has been independently verified for FSC Chain of custody certification and are eligible to be labeled with FSC logo. Products with the FSC certification will be available with our dealers and showrooms **throughout India**.

“This certification will be appreciated by manufacturers, architects and custom builders who specify green building products for environmentally-conscious homeowners and commercial applications,” states Mr. Sajjan Dokania, Director - Durian Industries Limited. “**FSC Certified Products** are specified in all the major Residential Green Building Programs, and is the only allowable certification for both commercial and residential projects”.

Durian, as an integral part of the lives of millions of Indians has strived to maintain the environmental concerns close to our hearts. In fact we are among the select few to have won the ISO 9001 and 14001 certifications along with the **FSC Certificate** for our entire range of Products - **Laminates, Plywood, Veneer, Home and Office furniture, because of our quality standards and contribution in the industry**. This, therefore, shows our commitment towards sustainable forest management and practices dedicated to the preservation of our valuable wood resources.

Acquiring the FSC certificate is our small way of being **a responsible corporate** towards our environment, our future generations and to the society we live in.

About The Forest Stewardship Council (FSC)

The Forest Stewardship Council (FSC) is an international organization that promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests.
